made by Sam Phillips in the St. Louis
Derby and the liberal odds of 5 to 1 are
laid against him.

The division of sentiment among well
informed horsemen as to the probable
winner of the classic event is quite remarkable. Although Lieut. Gibson still
has the call, there is a big following
for the others, especially for Sam Phillips and Advance Guard.

The supporters of the favorite bank on
his phenomenal speed, as shown by the
actual time recorded rather than by the
quality of horses he has defeated.

Others refuse to accept a time standard, and moreover there are those who
think Lieut. Gibson's workout on Thesday, in which he made the mile and a
half in 2:35%, could not have failed to
injure his derby chances.

Of this feature Trainer Charles
Hughes said: "It must be borne in mind
that Gibson has not raced for three
weeks, and that he is going to run
against horses prepared in actual contests. It has, therefore, been necessary
to give him some stiff preparation. I
believe Lieut. Gibson will go to the post I
thoroughly fit."

Barrack worked the derby distance at
Harlem. the time being variousty

Barrack worked the derby distance at Harlem, the time being variously caught from 2:36 to 2:38½. Sam Phillips worked a mile and a half at Washington park as follows: Half, 51 three-quarters 1:17 1-5; mile,1:44 1-5; mile and a quarter, 2:00%; mile and a half, 2:37%, He finished fresh and

half, 2:37%. He finished fresh and strong.

There has been plenty of local betting on the big event and in several downtown resorts profitable looking books are being made on the derby. The rain of yesterday has caused a big change in some of the prices quoted, Tommy Barrett's horse, Barrack, falling from 40 and 50 to 1 to 5 on the supposition that the Board of Trade man's colt is a great mud runner and will have little chance unless the track is heavy. Norford's showing at Harlem has increased the liking for him in some quarters and the fact that the history of the stake shows many winners for the malstake shows many winners for the mal tese cross of the Baldwin stable is suf-ficient for some betters to go after the Norford odds. He was backed off five

points from 29 to 1 yesterday afternoon and the betting was fairly brisk about the California trick, the only thing Baldwin has in the race. Sam Phillips, the Schorr candidate for Sam Fridings, the Schorr candidate for the rich plum, is thought to be out of it if the track is heavy. Although many claim the St. Florian get are fair in heavy going, the fact remains that Philips has yet to show that he is of much account on that sort of a track. It is known that his dam, Reckon, one of the grandest race marks of her remains the scarcely keep her feet in the mud, much less run in it. Reckon was the best 2 year old filly of her year and had several chances to prove her worth in heavy going. It may be Sam Phillips inherits his dam's dislike for the mud. More attention is being paid to the Barrick candidate, James, and he has found many supporters in the last few days. Advance Guard is well liked, too, and Ellily Oliver's supreme confidence in All Gold has switched many good turfment to his way of thinking.

ElDorado the Scene of an Awful Tragedy.

Miss Morrison Cuts the Throat of Mrs. Castle.

A CASE OF JEALOUSY.

Then Turns the Razor and Slashes Herself.

Mrs. Castle a Bride of But a Few Days.

Both Women High in Social El Dorado Circles.

El Dorado, June 23 .- The most horrible deed that has ever been committed in the history of the town occurred Friday, about 8:45, when Miss Jessie Morrison cut the throat of Mrs. Olin Castle, with a razor, completely severing the wind pipe and mutilating her throat horribly. The act was committed in Mrs. Castle's home on Merchant street one block north of Central avenue. The

one block north of Central avenue. The motive is unknown but it is thought the deed was done in the heat of jealous passion. Mrs. Castle is a bride of only a few days. Miss Morrison was formerly employed in the Racket, the place where Mr. Castle now has a position. Nover before has the town been so worked up and excited.

Mrs. Castle's recovery is extremely doubtful. She has but one chance in a hundred. After mutilating her Miss Morrison turned the razor on herself but did not inflict serious wounds.

Mrs. Emma Spangler who lives next door to the Castle home was talking to some visitors when she heard some one scream. She thought it was a child at first but the acreams became so pronounced that she rushed to the front screen door of the Castle home which she found fastened. In passing the north window of the house in going to the back door she saw Mrs. Castle covered with blood. The back door was locked. Mrs. E. D. Mobberly who lives across the street had heard the screams and she too thought it was a child receiving punishment, but had come out locked. Mrs. E. D. Mobberly who lives across the street had heard the screams and she too thought it was a child receiving punishment, but had come out on the walk opposite the house. Mrs. Spangier called to her and she came over and they burst in the front screen. Mrs. Castle was on the floor in the front room, lying hear the couch which was in the northwest corner of the room. Miss Morrison was bending over her. Mrs. Mobberly pulled her away. The razor was lying under Mrs. Castle. It was black handled and very sharp. The ladies started to take Miss Morrison away. She said excitedly, "Oh, there is a letter. I want it. Let me go back and get it. I must have that letter. I am going back after that letter. I must have it that here it." Mrs. Spangier thinks it may have been two or three minutes from the time she first heard the screams until she arrived on the scene. As she passed the window she saw Miss Morrison bending over Mrs. Castle.

Miss Morrison is a daughter of Judge M. H. Morrison and has been accounted a bright young lady. Mrs. Castle is a daughter of Mr. and Mrs. Rohm Wilse

M. M. Morrison and has been accounted a bright young lady. Mrs. Castle is a daughter of Mr. and Mrs. Roland Wiley and was married to Mr. Castle the 13th of this month. She is a most beautiful young lady, refined and accomplished, of sweetest disposition and manners, loved by all. She is especially popular in church circles.

DOWN IN HARPER COUNTY There Is a Small Wheat Acreage But a High Percentage.

Anthony, Kan., June 23.—Harper county probably has the best wheat crop in Kansas. There are only 95,580 acres of wheat in the county, but its average yield will be better than in any

report, gives the condition of wheat in this county at III per cent, the highest in the state.

George Holbower, a prominent citizen, is worth \$20,000 and owns beside \$5,000 in government bonds-\$25,000 in all.

"Well." he sald, in answer to questions, "I came here fifteen years ago from Illinois and bought 160 acres of land here for \$1,650. I had a little money and paid part down on it, and when I started in to farm the first year I had a span of mules, one little pony, one cow, a wagon and a cultivator, and I was \$1,150 in debt. I taught school the first two winters I was here to help me out. I had to do it or starve. It was a case of root hog or die."

"What have you now?"

"Well, let's see. I own \$60 acres of land here; I own \$5,000 worth of government war bonds; I have money loaned out at interest; I have cash enough besides to build me a big house this fall, and I don't owe a dollar in the world."

"How did you make it?"

"Right here on the farm. I have this year I'5 acres in wheat that will yield me from twenty-five to thirty bushels to the acre; I'6 acres in as good corn as you ever saw grow and Il0 acres in oats. That's the sort of crops I've been raising here. I feed from one to three carloads of cattle every winter and in this way I manage to scrimp along. My \$60 acres of land cost me an average of \$10 an acre. I wouldn't sell it, of course, for \$20 an acre. The crops this year are the biggest we've had in the fifteen years I've been here, and you can tell the folks that the short grass country's good enough for me."

Thew heat field that Mr. Holbower was cutting had grown wheat for twelve years in succession without an ounce of fertilizer, and he expects a yield of 25 to 30 bushels an acre from it.

GAS COMPANY NEGLIGENT.

GAS COMPANY NEGLIGENT. Another Damage Verdict Growing Out of a Coffeyville Explosion

in 1893. in 1893.

Independence, June 23.—Joseph Uncapher, of Coffeyville, was awarded \$5,\*000 damages against the Coffeyville Gas company, in the district court Friday, as a result of a gas explosion in October, 1893, which destroyed two 2-story brick houses of Coffeyville, killing one man and injuring another. The wife of Jas, Carter, a blacksmith, who was killed in the explosion, was awarded \$5,000 at the last term of the district court and there are two suits still pending, one brought by A. S. Maxwell for \$2,000. These were persons who occupied the buildings that were destroyed.

It was proven that the company was negligent and allowed gas to escape under the buildings which caused the explosion.

Captain Clarke is anxious to secure the addresses of all former members of the regiment.

THE POTATO IS KING. Kaw Valley Farmers Expect to Market 1,200 Carloads at Good Prices.

Lawrence, June 23.—Growers of potatoes in the Kaw valley from Kansas City, Kas., to Topeka expect to market 1,200 cars of potatoes from this year's crop. The acreage is not as large this year as usual, which is due to the low prices and slender profits of the last two or three years. Still the yield will be a good one and growers expect to get better prices than they have for several years.

expect to get better prices than they have for several years.

Senator Edwin Taylor of Edwards-ville said it was time for the potato man to have a share of the prosperity.

"The farmer is getting good prices for his wheat and corn and his cattle and hogs, the laborer is getting pienty of work at fairly good wages, but the potato man is getting only small returns. I think it is time for the potato man to have an inning."

Indications now point to much better prices than have been paid for potatoes for several years. The northern crop is backward and the floods in the south have left many potato fields

"May good digestion wait on appetite and health on both."

That sentence from Shakespeare is a genuine benediction of the body. In this as in so many other things the intuition of his mighty mind seems to have fath-

accompanied by weakness and failure of the digestive and assimila-tive organs. Under these conditions the stomach, liver and blood-making making glands fail in the symptom

edwork. Then the symptoms of disease appear, often in organs apparently remote from the real cause. Vitality is lowered. There is a full and sluggish feeling often accompanied by headache. The heart may seem affected. There may be lack of ambition and energy with mental irresolution. With such symptoms as these "delay is dangerous." Such a condition affords the favorite starting point for consumption. It is useless to "doctor" for the symptoms. The remedy that reaches the case must reach the cause of disease. The greatest medicine for all diseases of the stomach and other digestive and nutritive organs is Dr. Pierce's Golden Medical Discovery. It restores the appetite, re-establishes a sound digestion, purges out the bilious poisons which infect the blood, carries off waste and builds up sound and healthy tissues. The "Discovery" is not a stimulant. It contains no alcohol or whisky. No other medicine has so great a record of cures, therefore accept no substitute.
